

ABOUT LIFEAPP

LifeApp is a centre for relational health, empowering people to live love well.

Since 2014, LifeApp has been hosting live events, teaching masterclasses, and running retreats to inspire, teach, and support those wanting to grow in the art, science and spirit of love; making relational education—learning how to live love well, desirable and accessible to all.

Founded in Langley, BC, LifeApp is a registered for-impact charity in both Canada and the USA. Our agenda is to make relational education desirable and accessible to all.
